

Q. Is there a budget?

A. No. We are asking for estimates as part of the proposal.

Q. How extensive of a Preliminary Study are you seeking?

A. The completed Preliminary Study should be sufficiently detailed to give the Tribe a concept of what the project(s) might look like, and a reliable estimate of cost, while remaining affordable.

Q. How will the Preliminary Studies be used?

A. The studies will provide the information we need to pursue additional planning dollars. As mentioned in the RFQs, next steps are a comprehensive planning process, leading to construction.
